BID NOTICES & RFP'S

**MIAMI-DADE COUNTY, FLORIDA
REQUEST FOR DESIGN-BUILD SERVICES
(RDBS)
WATER AND SEWER DEPARTMENT
DESIGN-BUILD SERVICES FOR THE
INSTALLATION OF A 54-INCH DIAMETER
WATER TRANSMISSION MAIN NEAR RED
ROAD FROM JOHN E. PRESTON
TREATMENT
PLANT TO WEST 53 STREET
ISD PROJECT NO. DB20-WASD-01**

The County Mayor, Miami-Dade County, pursuant to Chapter 287.055 of Florida Statutes, and Sections 2-8.1 and 2-10.4, Implementing Order 3-34 and Administrative Order 3-39, and Ordinance 14-77 of the Miami-Dade County Code, announces that WASD will require design-build services for installation of a 54-inch diameter water transmission main near Red Road from John E. Preston Treatment Plant to West 53 Street.

Pursuant to Florida Statutes 287.055, "A design criteria professional who has been selected to prepare the design criteria package is not eligible to render services under a design-build contract executed pursuant to the design criteria package. The Design Criteria Professional, Lockwood, Andrews & Newnam, Inc. (LAN), and the following subconsultants are not eligible to render Design-Build services for this solicitation: CDM Smith Inc., Milian, Swain & Associates, Inc., Longitude Surveyors, and GEOSOL, Inc.

The Scope of services shall include, but is not limited to site investigation, engineering, design, survey, technical specifications, permitting, construction, testing and commissioning activities required for the construction of a new 54-inch diameter water transmission main near Red Road from John E. Preston Treatment Plant to west 53rd Street. The design and construction services rendered by the Design-Builder shall result in a complete, functional, and operable piping project with a standard design life.

The Design-Builder must complete the Work by the following durations, which exclude the warranty administration period:

Substantial Completion on or before **1,095** calendar days after the date of Notice to Proceed which requires placing into service all new water mains and connections within the public right-of-way and shall include all work associated with surveying, geotechnical investigations, engineering, design, technical specifications, permitting, construction, testing and commissioning services for the complete and fully operational installation of the new 54-inch diameter water transmission main and reopening all roads and sidewalks to traffic.

Final Completion and Project Closeout on or before **1,190** calendar days after the date of Notice to Proceed which requires Final Completion and Project Closeout: including obtaining acceptance by all applicable regulatory agencies including WASD, of all Work and Services under the Contract, including completion of all remaining site restorations, record documents, and all other remaining incomplete or unacceptable work items identified at or subsequent to Substantial Completion.

LIQUIDATED DAMAGES

If the Design-Builder does not achieve Substantial Completion by the established Substantial Completion Contract Date, Liquidated Damages (LDS) will be assessed in the amount of two thousand five hundred dollars (\$2,500) per calendar day, which will be paid to the County by the Design-Builder. If the Design-Builder does not achieve Final Completion by the established Final Completion Contract Date, LDs will be assessed in the amount of one thousand dollars (\$1,000) per calendar day, which will be paid to the County by the Design-Builder. LDs will be cumulative if both the Substantial Completion Contract Date and the Final Completion Contract Date are exceeded. All assessments of LDs to the Design-Builder may be adjustments to Payments due to the Design-Builder.

The total estimated compensation for the Design-Build contract is \$32,398,000. The breakdown is as follows:
Estimated Construction Cost \$ 26,972,730
Estimated Engineering Cost \$ 2,697,273
Construction Contingency (5% of Construction Cost): \$ 1,348,637

Engineering Contingency (10% of Engineering Cost): \$ 269,727
Permit Fees: \$ 809,182
Dedicated Allowance - Removal and Remediation of Contaminated Fill Material \$ 300,451
Cost Estimate: \$ 32,398,000

Experience and Qualifications:

The Design-Builder shall present its Project team experience, including the qualifications and capabilities of each Design-Build Team member firm, for projects completed within the last ten (10) years from the Step 1 Submittal Deadline, including projects that will be at least fifty percent (50%) complete prior to the Step 1 Submittal Deadline. The following project experience is highly preferred and will be scored accordingly:

Lead Constructors:

1. The construction firm performing the open cut installation work should have a minimum of five (5) years total industry experience as of the date of this solicitation. It also should have successfully constructed at least one (1) water main or force main pressure pipe project of similar size and complexity in an urban environment consisting of minimum 48-inch nominal diameter of such pipeline installation.

2. The construction firm or specialty subcontractor performing the microtunneling work should have successfully constructed at least one (1) microtunneling project consisting of jacking similar type of casing pipe that is selected by the Design-Builder for the crossings in the last ten (10) years. To qualify, each of these microtunnel(s) should have been a minimum of 5-feet internal diameter in soft ground below the groundwater and at least one (1) of the microtunnel(s) excavated in ground similar to the conditions expected for this Project.

3. The construction firm or specialty subcontractor performing the shaft construction should have successfully constructed at least one (1) deep shaft(s) that was at least 25-foot deep (below grade). At least one (1) shaft should have been extended below groundwater and required means of controlling inflow and bottom heave of the shaft.

4. The construction firm or specialty subcontractor performing the installation of the carrier pipe within the casing pipe should have successfully completed at least one (1) project involving the installation of a carrier pipe of minimum 48-inches inside diameter, similar pipe material, installation and grout fill of the annular space between casing and carrier pipe.

5. The construction firm or specialty subcontractor performing the tapping of the operating 54-inch diameter prestressed concrete cylinder pipe water transmission main should have successfully completed at least one (1) project of similar size and type.

6. The Lead Constructor (Prime or Subcontractor) on the Design-Builder team qualify for Item 1 of the above requirements.

7. Experience of Lead Constructors and Pipe Installation Crews should demonstrate a history of past performance completing projects on schedule and to the satisfaction of the facility owner.

Lead Designers:

1. The Lead Designer firm performing the design of the water transmission main installation should have a minimum of five (5) years total industry experience as of the date of this solicitation. The Lead Designer firm should also must have designed at least one (1) pressure pipeline installation project in an urban environment consisting of minimum 48-inch nominal diameter.

2. The Lead Designer firm or its Subconsultant performing the design of the microtunnel(s) should have designed at least one (1) microtunneling project consisting of jacking a similar casing pipe as proposed for this Project. The project should be of 5-foot diameter casing pipe or larger. At least one microtunnel segment should have been in similar ground conditions and similar crossings to those proposed.

3. The Lead Designer firm or its Subconsultant performing the design of the carrier pipe within the casing pipe have designed one (1) project with a carrier/product pipe of 48- inches minimum nominal diameter, and required a detailed geotechnical instrumentation program to monitor the ground behavior to the tunneling.

4. The Lead Designer firm or its Subconsultant performing design for the deep shaft(s) should have designed a deep shaft project to support a microtunneling operation. The shaft should be at least 25-foot deep (below grade).

The expertise must be met by a qualified individual(s) of the Design-Builder, Lead Designer, subcontractor and/or subconsultants, as applicable. The preferred experience and qualifications must be demonstrated by direct or substantial involvement of the individual(s) in a supervisory capacity at the Project Manager level or above. The determination of the individual's qualifications and compliance with the preferred experience and qualifications will be at the sole discretion of the County. The Competitive Selection Committee may negatively evaluate proposals they determine have failed to meet the above preferred experience and qualification(s).
