# RED-LIGHT CAMERA OPERATIONS SUPPLEMENT TO CRIMINAL JUSTICE USER AGREEMENT

This Agreement supplements the Criminal Justice User Agreement entered into between the Florida Department of Law Enforcement (hereinafter referred to as FDLE), an agency of the State of Florida, and the City of Doral Police Department, with headquarters at 8420 N.W. 52<sup>nd</sup> Street, Doral, Florida 33166, (hereinafter referred to as the User), and dated May 2, 2011.

**PURPOSE:** This Supplemental Agreement is to document the terms and conditions under which the User is authorized to permit the use of its Originating Agency Identifier (ORI) to facilitate access to vehicle registration information provided via FDLE's International Justice and Public Safety Network (Nlets) connection, the Florida Crime Information Center (FCIC II) Message Switch, and the Florida Department of Highway Safety and Motor Vehicles (DHSMV), for use in association with red-light camera traffic infraction detection operations implemented by county and municipal governments as authorized by Chapter 2010-80, Laws of Florida.

Whereas, FDLE is duly authorized and agrees to ensure access to the information services provided to the User via Nlets;

Whereas, the User provides law enforcement services for the

City of Doral (governmental entity);

Whereas, the governmental entity has contracted with a vendor for the purposes of traffic code enforcement using red-light cameras;

Whereas, the vendor, as a designated strategic partner with Nlets, submits queries to DHSMV via FDLE's Nlets connection and the FCIC II Message Switch, and such queries include the User's ORI;

Therefore, the FDLE and the User do hereby agree as follows:

## Section I FDLE REQUIREMENTS

FDLE agrees to provide the information services described above and will adhere to the following terms and conditions:

1. Serve as the primary point of contact for Nlets transactions that originate on behalf of the User by the authorized vendor.
2. Monitor the use of the FCIC and Nlets to ensure that automated traffic generated as a result of red-light camera traffic infraction detection operations do not have an adverse impact on officer safety.

3. In the event of an outage of normal NCIC services for any reason, FDLE reserves the right to curtail or discontinue the processing of red-light camera inquiries until the event or situation that caused the outage has passed or been resolved and services are fully restored.

## Section II USER REQUIREMENTS

By providing access to the information services described above, the User agrees to adhere to the following terms and conditions:

1. The User shall ensure that all vendor personnel reviewing the vehicle registration information provided as authorized herein are current in CJIS Online certification, as prescribed by FDLE.
2. The User shall not share any state or national Hot File Information to which it has access with the Vendor. The Vendor shall not view or store any Hot File information on behalf of the User. (All other restrictions on access to and dissemination of information obtained by or available to User under its User Agreement with FDLE continue to apply.)
3. The User shall enter into an instrument of agreement with the Vendor acknowledging information is obtained by the Vendor via Nlets and the FCIC II Message Switch on behalf of the User. A copy of this agreement shall be forwarded to FDLE. The User shall ensure the Vendor complies with access and dissemination policies for any information obtained via a query processed through the FCIC II Message Switch.

IN WITNESS HEREOF, the parties hereto have caused this Supplemental Agreement to be executed by the proper officers and officials as of the later date indicated below.
