

RECYCLING

ORDINANCE #2014-41

BENEFITS OF RECYCLING

Establishing a community recycling program is a wise investment in the local and regional economy, a strong commitment to reducing energy needs, and an effective way of preserving our environment.

BENEFITS OF RECYCLING

- Reduces the amount of waste sent to landfills and incinerators.
- Conserves natural resources such as timber, water, and minerals.
- Prevents pollution by reducing the need to collect new raw materials.
- Saves energy.
- Reduces greenhouse gas emissions.
- Helps sustain the environment for future generations.
- Helps create new well-paying jobs in the recycling and manufacturing industries in the United States.

GO GREEN

ORDINANCE #2014-41

Sec 32-101. – Recycling program and separation of recyclable materials from solid waste stream required for multifamily residences of four dwelling units or more; owner/association liability; recycling contractors' assistance.

As of July 1, 2015, every Multifamily Residential Establishment shall provide a recycling program pursuant to this section or a city-approved modified recycling program pursuant to section 32-104. The Recycling Customer shall be liable for the failure to provide a recycling program or a modified recycling program approved by the City. Further, recycling contractors shall assist and provide written notice to the Director of the City's Public Works Department in identifying multifamily residences subject to this article which do not have a recycling program or, in the alternative, which have allowed a recycling program to lapse or expire.

ORDINANCE #2014-41

As of July 1, 2015 every Multifamily Residential Establishment shall be required to use a single-stream recycling process to separate, from all other solid waste, the following recyclable material.
